I hereby declare:

- The information provided herein is true to the best of my knowledge.
- The above materials were used for their intended purposes as described in the application form.
- I have received or will receive the following funds from other cost-share programs towards this project:

Other Cost-Share Funding	Grant Rate	Amount
Total proposed funding from other sources:		

I/We understand that I/we must disclose in this application for project funding, all proposed sources of funding, including sources and amounts from federal, provincial or municipal governments, conservation groups, and private organizations, including in-kind contributions, for the duration of this project.

Signed by _____ Date: _____

The above practices have been carried out on the registered land as described on the application form.

Participant's Signature	Date

For fillable forms: by typing your name, you have read and acknowledged the statement above.

I have visited the site to verify that the cover crop has provided at least 50% ground over winter.

Cover Crop Boost Program Project Requirements

Performance Incentive: \$30/acre for a cover crop

Maximum Payment: \$3,000 (maximum 100 acres per applicant)

Purpose:

1. This program will encourage growers to try cover crops and techniques and help demonstrate their use.
2. To promote the establishment and over-wintering of cover crops (living or dead), which help provide soil protection and reduce soil erosion to watercourses.
3. To protect groundwater by promoting biological nitrogen capture.

Details:

1. Restricted to landowners planting cover crops in the Main Bayfield, Bannockburn, Bayfield Headwaters, Bayfield North and South Gullies watersheds.
2. Cover crop can be one or more species (must be three or more species in order to obtain Huron Clean Water funding).
3. Applicants must register their eligible fields with ABCA staff, providing location and management plan for the cover crop.
4. Crops may be tilled no sooner than the spring of the year following planting (may be chemically killed the previous fall).
5. Applicants must notify staff well before spring tillage so the final crop residue measurement can be made.
6. A final residue measurement of at least 50% is required prior to planting the next crop in the following spring.
7. Cover crops are not to be used for forage or grazing. The project is not eligible for funding if the field is grazed or harvested.
8. Applications for less than 25 acres (approximately 10 ha) will be subject to the discretion of the Review Committee.

Performance Incentive:

1. Applicants will be paid the incentive after ABCA staff has confirmed the field(s) were managed according to the guidelines.
2. Applicants do not have to produce proof of payment for cover crop seed.
3. Applicants who grow their own seed are eligible to participate in the program.
